

PayLock Pro

Web Portal

Complete User Manual

Version 1.2.3 | March 2026
PayLock Pro OU | Tallinn, Estonia, EU
support@paylock.pro

Table of Contents

- 1. Accessing the Portal
- 2. Dashboard Overview
- 3. Client Management
- 4. Loan Management
- 5. Payment Processing
- 6. Device Management
- 7. Reports & Exports
- 8. Settings & Administration
- 9. API Access (Enterprise)
- 10. Keyboard Shortcuts & Tips

1. Accessing the Portal

The PayLock Pro Web Portal provides full access to all features through a web browser.

Login

1. Open your web browser (Chrome, Firefox, Safari, or Edge).
2. Navigate to: <https://api.paylock.pro/api/portal>
3. Enter your admin username and password.
4. Click 'Login' to access the dashboard.

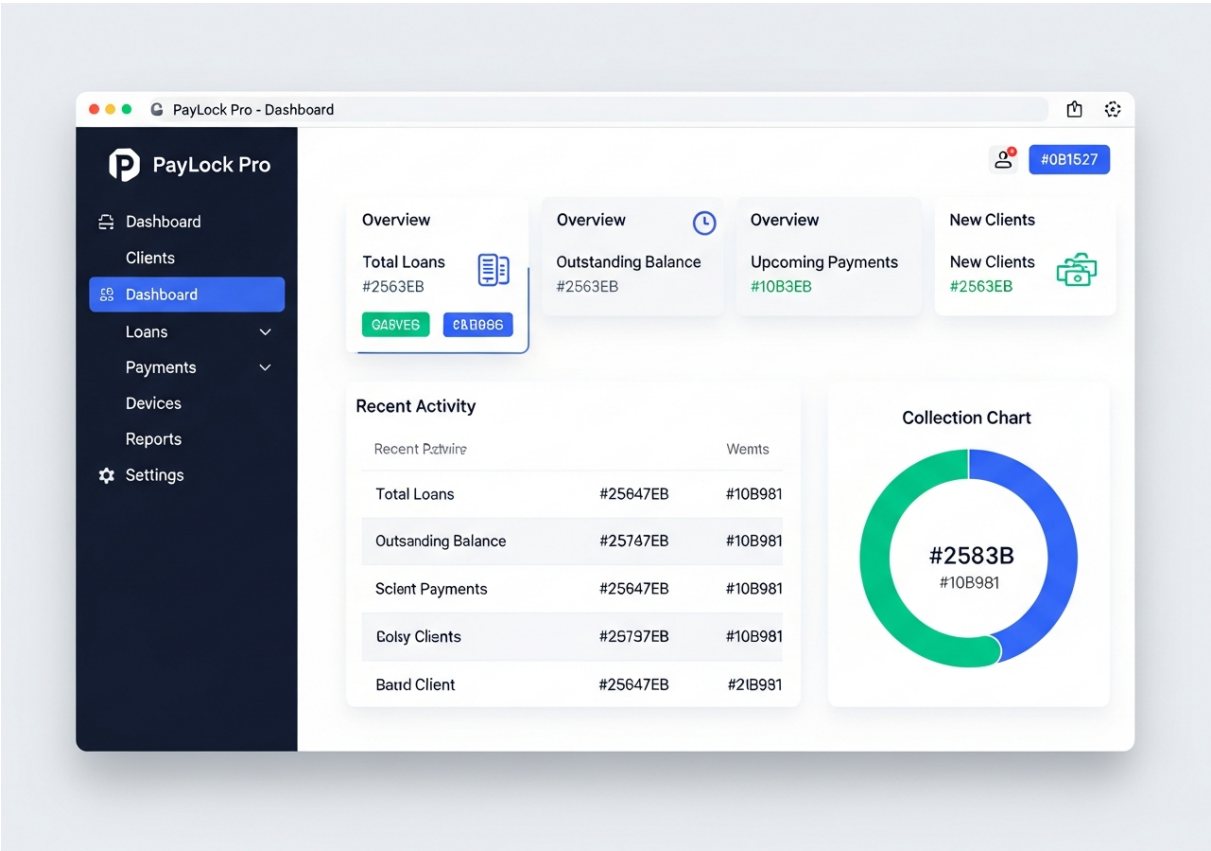

Supported Browsers

- Google Chrome 90+ (recommended)
- Mozilla Firefox 90+
- Safari 15+
- Microsoft Edge 90+

Note: The web portal uses the same credentials as the mobile admin app. All data is synchronized in real-time across both platforms.

Tip: Bookmark the portal URL for quick access. You can also create a home screen shortcut on mobile browsers.

2. Dashboard Overview

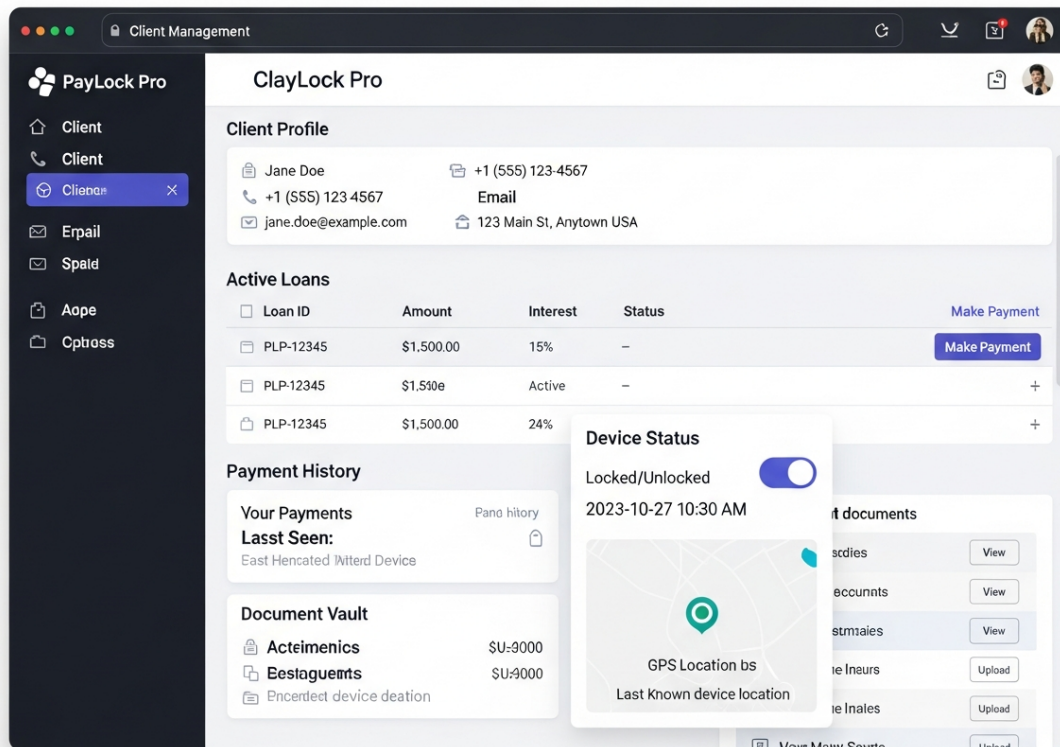

Web Portal Dashboard - Comprehensive portfolio view

The web dashboard provides a comprehensive, at-a-glance view of your loan portfolio with interactive charts and real-time data.

Dashboard Components

- Metric Cards: Total clients, active loans, overdue accounts, monthly revenue
- Revenue Chart: Interactive line chart showing monthly collections trend
- Collection Rate: Visual gauge showing on-time payment percentage
- Recent Activity: Live feed of latest payments, client registrations, and device events
- Quick Actions: Buttons for common tasks (Add Client, Record Payment, Generate Report)
- Device Status Summary: Count of online, offline, and locked devices

3. Client Management

Client Detail Page - Full client profile and controls

Adding Clients

1. Click 'Add Client' from the sidebar or dashboard quick action.
2. Fill in the client form: name (required), phone (required), email, address.
3. Optionally set initial device token for provisioning.
4. Click 'Create Client' to save.

Client Search & Filters

Use the powerful search and filter system to find clients quickly:

- Text search: Name, phone number, or email
- Status filter: Active, Locked, Overdue, Completed
- Sort by: Name, loan amount, last payment, registration date

Client Profile Actions

From a client's profile page, you can:

- View and edit contact information
- Create new loans or modify existing ones
- Record payments and view full payment history
- Lock/unlock their device remotely with custom messages
- Upload documents to their encrypted vault
- View GPS location history on an interactive map

- Send messages via in-app chat, Telegram, or WhatsApp
- View credit score and risk assessment
- Access tamper detection logs and security events

4. Loan Management

Creating a Loan

1. Navigate to a client's profile.
2. Click 'Create Loan' in the loans section.
3. Select a pre-configured loan plan or enter custom terms.
4. Set principal amount, interest rate, and calculation method.
5. Choose duration and payment frequency.
6. Review the auto-generated EMI payment schedule.
7. Click 'Create' to finalize the loan.

Loan Status Tracking

Status	Description	Actions Available
Active	Loan is current, payments on time	Record payment, modify terms
Overdue	One or more payments past due	Record payment, lock device, send reminder
Defaulted	Multiple missed payments	Restructure, escalate, legal action
Completed	Loan fully repaid	Generate completion certificate
Restructured	Terms have been modified	Track new schedule

5. Payment Processing

Record and track payments through the web portal.

Recording Payments

1. Navigate to Payments section or client's loan view.
2. Click 'Record Payment'.
3. Enter amount, select payment method, add reference number.
4. Click 'Confirm' to save.

Payment Methods Supported

- Cash: Manual recording with optional receipt
- Bank Transfer: Record with transaction reference
- Stripe: Online card payment with automatic reconciliation (Enterprise)
- Mobile Money: Record with provider reference

6. Device Management

Lock/Unlock Controls

Manage client devices directly from the web portal:

1. Go to a client's profile.
2. Click 'Lock Device' or 'Unlock Device'.
3. For locking: Enter a custom message that will display on the client's screen.
4. Confirm the action.

Auto-Lock Configuration

Set up automatic device locking rules:

- Grace period: Days after missed payment before auto-lock
- Lock message template: Default message for auto-locked devices
- Escalation rules: Standard lock to Device Owner lock
- Bulk lock/unlock: Manage multiple devices simultaneously

Device Monitoring

The portal shows real-time device status:

- Online/Offline indicator with last seen timestamp
- Lock status (locked/unlocked)
- Admin mode status (active/inactive)
- Permission compliance (all permissions granted?)
- Last GPS location on map
- Tamper detection events log

7. Reports & Exports

Generate comprehensive reports from the Reports section in the sidebar.

Report Types

- Financial Summary: Revenue, principal disbursed, interest earned, profit/loss
- Collection Trends: Payment rates and trends over time
- Client Analytics: Health scores, risk distribution, demographics
- Portfolio Health: NPA ratios, risk scoring, exposure analysis (Enterprise)
- Revenue Forecast: AI-predicted future collections (Enterprise)
- Comparative Analytics: Period-over-period comparisons (Enterprise)

Export Formats

- PDF: Formatted reports with charts and summaries
- CSV: Raw data for Excel, Google Sheets, or custom analysis

Scheduled Reports (Enterprise)

Set up automated email reports delivered to your inbox:

- Daily digest: Previous day's summary
- Weekly report: Week's comprehensive analytics
- Monthly report: Full monthly financial summary with comparisons

8. Settings & Administration

User Management

Manage your team from the Settings page:

- Create new team members with specific roles
- Change user plans (Starter/Professional/Enterprise)
- Deactivate or delete accounts
- Monitor active sessions and revoke unauthorized access

Permission Model

The web portal enforces the same permission model as the mobile app:

- Super Admins: Full access, can manage all users and admins
- Admins: Can create and manage only users they created
- Viewers: Read-only access to assigned data
- Collections: Can view clients and record payments

Late Fee & Auto-Lock Settings

Configure global defaults that apply to all new clients:

- Late fee percentage (% of monthly payment)
- Grace period days (before late fee applies)
- Auto-lock enabled/disabled toggle
- 'Apply to All' button to push settings to existing clients

Subscription Management

View and upgrade your subscription plan from Settings > Plans & Pricing. Payments are processed securely through Stripe.

9. API Access (Enterprise)

Enterprise customers have full REST API access for custom integrations and automation.

Getting Started

1. Obtain your API token by logging in via POST /api/admin/login
2. Include the token in requests as admin_token query parameter
3. Use the base URL: <https://api.paylock.pro/api/>
4. Refer to API docs at: <https://api.paylock.pro/api/docs>

Available Endpoints

Method	Endpoint	Description
POST	/api/admin/login	Authenticate and get token
GET	/api/clients	List all clients
POST	/api/clients	Create a new client
GET	/api/clients/{id}	Get client details
POST	/api/loans	Create a new loan
POST	/api/payments	Record a payment
POST	/api/device/lock	Lock a device
POST	/api/device/unlock	Unlock a device
GET	/api/analytics/*	Access analytics data

Note: Rate limit: 1000 requests per minute. Contact support for higher limits.

10. Keyboard Shortcuts & Tips

Productivity Tips

- Use browser bookmarks for quick access to specific client profiles
- Right-click client names to open in new tab for comparison
- Use Ctrl+F to search within any page
- Export reports regularly for offline backup
- Set up scheduled reports to stay informed without logging in

Mobile Access

The web portal is fully responsive and works on mobile browsers. Add it to your home screen for app-like access when the admin app is not available.
