18. Troubleshooting

1. Getting Started & Login

Download the PayLock Pro Admin app from Expo or install the APK provided by your administrator. The app is available for Android 8.0+.

First-Time Setup

1. Install the PayLock Pro Admin APK on your Android device.
2. Open the app - you will see the login screen.
3. Enter your username and password provided by your Super Admin.
4. Tap 'Login' to access your dashboard.
5. If you are the first user, your account automatically becomes Super Admin.

Note: Passwords must be at least 6 characters. Contact your Super Admin if you forget credentials.

2. Dashboard Overview

The dashboard is your command center, showing real-time portfolio metrics at a glance.

Figure 2.1: Dashboard - Loan Overview (top section)

The top section displays key metrics: Welcome back message, Active Loans count, Overdue clients, Completed loans, Total Collected amount, and Collection Rate percentage.

Figure 2.2: Dashboard - Charts & Interest (scrolled down)

Scrolling down reveals Interest Earned total, Loans Archived count, Device Heartbeat status, Monthly Interest Income chart, and Monthly Revenue chart showing 6-month trends.

Key Metrics Explained

Metric	Description	Action on Tap
Active Loans	Currently active loan count	Opens loan overview

Overdue	Clients past payment due date	Opens overdue list
Collection Rate	% payments received on time	Opens analytics
Interest Earned	Total interest from all loans	Shows breakdown
Monthly Revenue	Revenue trend over 6 months	Interactive chart

Note: Each admin sees ONLY their own clients' data on the dashboard. Super admins can use filter_admin_id=all to see enterprise-wide data.

3. Loans Management

Figure 3.1: Loans List with Given/Archived filter

The Loans tab shows all loans with filter options: 'Given' (active loans) and 'Archived' (completed/paid loans). Each loan card displays client name, amount, status, and progress.

Creating a Loan

1. Open a client's profile from the Clients tab.
2. Tap 'New Loan' or the '+' button.
3. Set principal amount, interest rate, and duration.
4. Choose interest calculation: Flat Rate or Day-Count (reducing balance).
5. Set payment frequency: weekly, bi-weekly, or monthly.
6. Review the auto-generated EMI schedule.

7. Tap 'Create Loan' to finalize.

Loan Restructuring (Professional+)

For overdue loans, open the loan details and tap 'Restructure'. Modify terms: extend duration, adjust interest, or change payment amounts. A new schedule is generated automatically.

4. Transactions & Payments

Figure 4.1: Transactions with All/Disbursements/Payments filters

The Transactions tab provides a complete financial history with filter tabs: All, Disbursements (loans given), and Payments (received). Each transaction shows date, amount, client, and type.

Recording a Payment

1. Navigate to Transactions tab or open a client's loan.
2. Tap 'Record Payment'.
3. Enter amount received and payment method (cash, bank transfer, mobile money, Stripe).
4. Add optional notes or reference number.
5. Tap 'Confirm' - balance updates automatically.

Tip: The system automatically adjusts remaining EMIs and device lock status after payment recording.

5. Features & Analytics

Figure 5.1: Features - Analytics section

The Features tab organizes all tools by category. The Analytics section includes Reports, Bank Statement Analyzer, Full Audit Log, and Revenue Forecasting. Features are gated by subscription plan.

Figure 5.2: Features - Administration section

The Administration section includes Settings, Team Management, Session Management, and Logout. Each feature shows which plan is required (Starter/Professional/Enterprise).

paylock.pro

Figure 6.1: Reports & Analytics dashboard

The Reports screen provides comprehensive financial analytics including:

- Profit Summary: Total revenue, expenses, and net profit
- Advanced Metrics: Portfolio health indicators and KPIs
- Bad Loans: Non-performing assets and default tracking
- Collection Overview: Payment collection rates and trends
- Financial Breakdown: Detailed income vs. expense analysis
- 6-Month Revenue Trend: Visual chart showing monthly revenue

Export Options

All reports can be exported as PDF (formatted with charts) or CSV (raw data for Excel analysis).

7. Bank Statement Analyzer (Enterprise)

Figure 7.1: Bank Statement Analyzer with AI Vision OCR

Enterprise users can upload bank statements for AI-powered analysis. The Bank Statement Analyzer uses Vision OCR to automatically extract:

- Transaction history and patterns
- Income verification and verification
- Balance trends over time
- Expense categorization

1. Navigate to Features > Bank Statement Analyzer.
2. Toggle AI Vision OCR on for enhanced accuracy.
3. Tap 'Upload Bank Statement' and select a PDF or image.
4. Wait for the AI to process and extract data.

5. Review extracted information and save to client profile.

8. Full Audit Log (Enterprise)

Figure 8.1: Audit Log with activity tracking

The Audit Log tracks every action performed in the system. It shows statistics for the last 7 days including total actions, action types, and admin activity counts.

- Login events with timestamps and IP addresses
- Client creation, modification, and deletion
- Loan creation, payment recording, and restructuring
- Device lock/unlock actions
- Settings changes and team management actions
- Document uploads and deletions

Note: Audit logs are retained for 90 days. Export logs as CSV for long-term storage.

9. Revenue Forecasting (Enterprise)

Figure 9.1: Revenue Forecasting with time period filters

AI-powered revenue predictions based on historical payment data. Select forecast periods: 30, 60, 90, 180, or 365 days.

Forecast Metrics

- Expected Collections: Total amount expected based on payment schedules
- Likely Collections: Adjusted estimate based on historical payment behavior
- Active Clients: Number of clients with active loans
- Reliability Score: Confidence level of the forecast

10. Loan Plans & Calculator

Figure 10.1: Loan Plans management

Pre-configure loan templates under Features > Loan Plans. Each plan defines default interest rate, duration, payment frequency, and late fee rules.

Figure 10.2: Loan Calculator

The built-in Loan Calculator helps you quickly estimate EMI amounts. Enter Principal Amount, Annual Interest Rate (%), and Tenure (months), then tap 'Calculate' to see the payment schedule breakdown.

11. Bulk Import & Document Vault

Figure 11.1: Bulk Import clients from CSV

Enterprise users can bulk import clients from CSV files. The CSV should contain columns: name, phone, email, address. The system validates data before import and reports errors.

Figure 11.2: Document Vault with search

The Document Vault provides encrypted storage for client documents. Search by client name or ID, upload files up to 10MB (JPG, PNG, PDF), and categorize by type: ID, contract, proof of income, or bank statement.

12. Device Management

Figure 12.1: Device Management dashboard

The Device Management screen provides an overview of all registered client devices with quick action buttons. Monitor device status, lock/unlock remotely, and track heartbeat connectivity.

Device Lock Modes

Mode	Capabilities	Requirement
Standard	Lock screen, kiosk mode, notification block	Device Admin permission
Device Owner	Full control, factory reset protection	ADB/QR provisioning

13. Client Management

Figure 13.1: Client list with search

The Clients tab shows all your registered clients with search functionality. Each client card displays name, phone, loan status, and device status.

Adding a New Client

1. Navigate to the Clients tab.
2. Tap the '+' button in the top right corner.
3. Fill in: full name (required), phone number (required).
4. Optionally: email, address, ID number.
5. Set device token if provisioning.
6. Tap 'Save' to create the client.

14. Payment Reminders

Figure 14.1: Payment Reminders with status filters

The Payment Reminders screen organizes upcoming and overdue payments with color-coded filters:

- Overdue (Red): Payments past due date - requires immediate attention
- Today (Yellow): Payments due today
- Soon (Blue): Payments due within the next 3 days
- Upcoming (Green): Payments due within the next 7 days

Tap any reminder to send a push notification to the client or record a payment.

15. Settings & User Management

Figure 15.1: Settings - Account, Plan, Profile, Preferences

The Settings screen provides account management. Your Account section shows profile details, current subscription plan, and preferences for language, currency, and theme.

Figure 15.2: Settings - Late Fee, Auto-Lock, User Management

Configure Late Fee & Auto-Lock settings globally. The User Management section shows all team members with their roles and plan assignments.

User Management Scoping

Role	Can Create	Can Manage	Sees
Super Admin	Admins + Users	Everyone	All members
Admin	Users only	Own users only	Self + own users
Viewer	Nobody	Nobody	Self only

WARNING: Admins can only manage (change plan, delete) users they created. Super Admins can manage everyone.

16. Subscription Plans

Starter (\$29/month)

- Up to 25 clients
- Push notifications & email reminders
- Basic analytics dashboard
- Loan calculator
- 1 admin user

Professional (\$79/month)

- Up to 200 clients
- Everything in Starter +
- Device lock & unlock
- Client messaging (Telegram, WhatsApp)
- PDF contract generation
- Auto-lock & late fee automation
- Team management (3 members)
- GPS tracking, Advanced reports, Loan plans

Enterprise (\$199/month)

- Unlimited clients & team
- Everything in Professional +
- QR & NFC provisioning, Device Owner mode
- Bank statement OCR (AI), Document vault
- Stripe payments, Scheduled reports
- Full audit log, Risk scoring
- Revenue forecasting, Bulk import/export
- REST API access, Priority support

17. Security & Tamper Detection

PayLock Pro includes multiple security layers to prevent client device tampering.

Permission Monitoring

The client app monitors 8 critical permissions. If any permission is revoked via device settings:

1. First detection: Full-screen Security Alert + push notification warning.
2. Second detection (permission still revoked): Tamper reported to server + device data wipe initiated.

WARNING: Data wipe is irreversible. Ensure clients understand consequences of tampering.

Admin Mode Protection

If Device Admin is deactivated: immediate Security Alert, push notification, and if not re-enabled: tamper report + factory reset.

18. Troubleshooting & FAQ

Cannot Login

- Verify username/password (case-sensitive).
- Check internet connection.
- Contact Super Admin to reset password.

Device Not Responding

- Verify client app is installed.
- Check device internet connectivity.
- Ensure all 8 permissions are granted.
- Check device admin is active.
