Table of Contents

- 1. Accessing the Portal & Login
- 2. Dashboard Overview
- 3. Client Management
- 4. Reports & Analytics
- 5. Device Management
- 6. Document Vault
- 7. Team Management
- 8. Exports & Data
- 9. Device Configuration (QR/NFC)
- 10. Additional Portal Features
- 11. Keyboard Shortcuts & Tips

1. Accessing the Portal & Login

Figure 1.1: Portal Login screen

Open your browser and navigate to your PayLock Pro portal URL (e.g., <https://your-server.com/api/portal>). Enter your admin username and password, then click 'Logi sisse' (Login).

Supported Browsers

- Chrome 90+ (recommended)
- Firefox 90+
- Safari 15+
- Edge 90+

Note: The portal uses the same credentials as the mobile admin app. All data syncs in real-time between both platforms.

2. Dashboard Overview

Figure 2.1: Portal Dashboard - Real-time portfolio metrics

The dashboard shows real-time metrics for your portfolio:

- KLIENDID KOKKU (Total Clients): Number of registered clients
- KOKKU KOGUTUD (Total Collected): Total payments received
- TASUMATA (Unpaid): Outstanding balance across all loans
- TAHTAJA ULETANUD (Overdue): Number of overdue clients
- VALJASTATUD (Disbursed): Total loan amount given out
- LUKUSTATUD SEADMED (Locked Devices): Currently locked device count
- SEE KUU (This Month): Monthly collection amount
- VIIVISTARASU (Late Fees): Total late fees accrued

Below the metrics, Revenue Trends and Profit Trends charts show 6-month financial history.

3. Client Management

Figure 3.1: Client list with status indicators

The Clients page displays all clients in a table with columns: Name, Phone, Loan Amount, Outstanding Balance, Status (Active/Overdue/Paid), and Device Status (Active/Locked).

Adding a Client

1. Click '+ Lisa klient' (Add Client) button at the top.
2. Fill in: Name (required), Phone (required), Email, Address.
3. Click 'Create' to save.

Client Actions

Click the eye icon on any client to view their full profile:

- Contact details and identification
- Active loans with payment schedules
- Payment history with dates and methods
- Device status with lock/unlock controls
- GPS location on interactive map
- Document vault
- Communication log

4. Reports & Analytics

Figure 4.1: Reports with financial metrics and export options

Navigate to Aruanded (Reports) in the sidebar. The reports page shows comprehensive financial data with tabs for Financial, Client, and Revenue analysis.

Metrics Displayed

- KOKKU VALJASTATUD: Total disbursed across all loans
- KOKKU KOGUTUD: Total collected from all payments
- TASUMATA: Total outstanding balance
- KOGUMISMAAR: Collection rate percentage
- TEENITUD INTRESS: Total interest earned
- VIIVISTARASU: Total late fees
- LEPINGUTASUD: Contract fees
- KOGUTULU: Total revenue (collections + fees + interest)

Export Options

Click 'Ekspordi PDF' for formatted reports or 'Ekspordi CSV' for raw data export.

5. Device Management

Figure 5.1: Device monitoring with connectivity status

The Seadmehaldus (Devices) page shows all registered devices organized by connectivity status:

- SEES (Online): Devices seen in last 30 minutes
- HOIATUS (Warning): Devices last seen 30-120 minutes ago
- KRIITILINE (Critical): Devices not seen for over 120 minutes

The table shows: Client name, Device model (e.g., Samsung Galaxy A50), Last seen timestamp, and Lock status (Avatud=Open, Lukustatud=Locked).

Quick Actions

Click any device row to access: Lock/Unlock controls, GPS location, Heartbeat history, Permission status.

6. Document Vault

Figure 6.1: Document vault with upload and search

The Dokumendihoidla (Document Vault) provides encrypted storage for client files.

Uploading Documents

1. Click 'Lae dokument ules' (Upload Document) button.
2. Select a file from your computer (max 10MB).
3. Choose the client and document type.
4. Click 'Upload' to store securely.

Search documents by client ID or name. Supported types: JPG, PNG, PDF. The vault shows total document count, total size, and contract count.

7. Team Management

Figure 7.1: Team management with role assignments

The Meeskond (Team) page shows all team members with their username, name, role, email, status, and last activity.

Adding Team Members

1. Click 'Lisa liige' (Add Member) button.
2. Fill in: Username, First Name, Last Name, Password.
3. Select role: Super Admin, Admin, Collections, or Viewer.
4. Click 'Add' to create the account.

Role Permissions

Role	Capabilities	Management
Super Admin	Full access to all features	Can manage all users
Admin	All features per plan	Only own created users
Collections	View clients, record payments	No team management
Viewer	Read-only access	No management

8. Exports & Data

Figure 8.1: Export options for Clients, Payments, and Collections

The Exports page provides one-click data export in multiple formats:

Available Reports

- Clients Report: Client data with loan status, payment history, risk scores (CSV, PDF, Excel)
- Payments Report: Detailed payment history with dates, amounts, and status (CSV, PDF)
- Collection Report: Collection rates, overdue trends, and financial summary (CSV, PDF)

Tip: Export reports regularly for offline backup and external analysis in Excel or Google Sheets.

9. Device Configuration (QR/NFC)

Figure 9.1: QR code and NFC configuration

The Seadistamine (Configuration) page allows generating QR codes and NFC tags for device provisioning.

QR Code Setup

1. Enter your WiFi SSID (network name).
2. Enter WiFi password.
3. Verify the Server URL points to your PayLock API.
4. Click 'Genereeri QR-kood' (Generate QR Code).
5. Show the QR code to the client device for automatic setup.

NFC Tag

Switch to the 'NFC silt' tab to configure NFC enrollment tags for tap-to-enroll device provisioning (Enterprise feature).

10. Additional Portal Features

Sidebar Navigation

The full sidebar menu provides access to all portal features:

- Juhtpaneel - Dashboard overview
- Kliendid - Client management
- Laenuplaanid - Loan plan templates
- Meeldetuletused - Payment reminders
- Aruanded - Reports & analytics
- Seadmed - Device management
- Dokumendid - Document vault
- Bank Analyzer - AI bank statement analysis
- Risk Scoring - Client risk assessment
- Bulk Messaging - Mass notification sending
- Exports - Data export (CSV, PDF, Excel)
- CSV Import - Bulk client import
- Ajakavad - Payment schedules
- Telegram - Messaging integration
- Meeskond - Team management
- Tegevuslogi - Activity/audit log
- Seadistamine - Device QR/NFC configuration
- Seaded - Account settings

Responsive Design

The portal is fully responsive and works on mobile browsers. Add it to your home screen for app-like access.

11. Keyboard Shortcuts & Tips

- Use browser bookmarks for quick client profile access
- Right-click client names to open in new tabs
- Ctrl+F to search within any page
- Export reports regularly for offline backup
- Set up scheduled reports to stay informed without logging in (Enterprise)
